🚀 OpportUNITA - Jacathon
Opportunities for Everyone

Organized by UNITA - Universitas Montium - UNIZAR and UPPA (Jaca)

Your Vision, Our Future
A challenge to innovate for Europe's territories.

🌍 Context

UNITA - Universitas Montium brings together 12 universities across 7 European countries, serving +250,000 students and +21,000 staff. We aim to shape a new model for an integrated European university. With our partners, we are fostering a unique ecosystem with powerful transformational potential for our universities and territories.

◎ Objective

This hackathon requires participants to develop **OpportUNITA**, a solution allowing to communicate and discover the opportunities offered by UNITA to everyone:

> **Students:** opportunities to learn and discover.

> **Teachers and researchers:** opportunities to create educational or research programs.

> **Administrative and technical staff:** opportunites to exchange good practices.

> **Territory economic and social partners:** opportunites to develop our territories.

💻 Core Challenge

Design and implement an OpportUNITA digital solution. You will need to provide:

A) 4 minutes speech (In French and/or Spanish):

    (a) Context, needs and innovative solution (1min)

    (b) Actors involved and functionalities offered (1min)

    (c) Technical architecture of the solution (1min)

    (d) Demonstration of your solution (1min)

B) Source code and documentation of your solution

💡 Liberty of Innovation

Participants are granted freedom of innovation and may deliver their project as any of the following:

✔ **Web Application / Site**

✔ **Mobile Application**

✔ **Game**

✔ **Data analysis and visualization tool**

✔ **AI solution**

✔ **Any other idea**

Collaboration is key: Form multi-disciplinary teams and combine skills in programming, design, content, and communication.
